

LATE NEWS FROM ABROAD.

Japan and China are in the Throes of War.

NO ACTION ON THE SUGAR TARIFF.

Carnot's Assassination will be Put to Death.
A Report of the Defeat of the Chinese in a Big Naval Engagement—
Railroad Troubles are About Over.

LONDON, August 3.—A dispatch to the Standard says: It is reported that there has been a fresh collision between Chinese and Japanese troops in Korea. It seems that after their recent defeat the Japanese assembled their available strength and took the offensive, achieving a decided victory over the Chinese.

A dispatch from Tien-Tsin says all the deserters from the troops marching to Taku will be beheaded today.

WASHINGTON, August 3.—Official notification of a battle between the Japanese and Chinese land forces in Korea was received at the Japanese Legation here tonight from the Foreign Office at Tokio. The telegram stated that on the 28th of July a portion of the Japanese troops at Seoul marched against a much superior force of Chinese entrenched at Shan Yeng. A battle ensued and after heavy fighting the Chinese were put completely to rout and a large number of prisoners and munitions of war were captured by the Japanese. On the morning of the 30th the Japanese proceeded to March against Gusan.

Shan Yeng is situated between Seoul and Gusan, near Yashan, where the fight between the Japanese and Chinese, resulting in the loss of 2000 Japanese, is reported to have occurred. It is the opinion of the legation officers here that the reports from Chinese sources containing rumors of the defeat of the Japanese at Yashan are probably gross exaggerations, though no dispatches referring to a fight at the latter place have yet been received.

BERLIN, August 3.—A dispatch from a German official source at Tien-Tsin says: The German gunboat Ilia witnessed the sinking of the Kow

seek the assistance of any intermediary, just the same as you would do had you any business there. The President has received the plea for the restoration of the Queen, and we, who represent her, now have the privilege of calling on the Secretary of State.

Mr. Wideman said further that the commission had not come to Washington to ask for the restoration of the Queen nor for the purpose of asking compensation for her dethronement. In fact he (Wideman) had not heard of this report until he reached Washington.

Recognition by Minister Willis.

WASHINGTON, July 30.—The President today sent Congress another installment of the Hawaiian correspondence, the most important feature of which is Minister Willis' recognition of the new republic. He wrote: "I hereby as far as I have a right to do extend the republic of Hawaii the recognition accorded its predecessor, the Provisional Government. I do this in the belief that I represent the President of the United States, to whom, as the executive chief of the government, my action will be submitted for necessary approval."

The Hawaiian royalist commission now on its way to Washington will be compelled to depend upon its own resources to secure an audience with officers of this Government. No assistance in that direction will be given by the officers of the legation of the republic here, who point out that it would be manifestly improper for them to intercede in behalf of anyone who is opposed to the existing Government.

Necker Island.

MELBOURNE, July 29.—Robert Reid, Minister of Defense, denies the charge that has been made against him that he revealed the British intentions in regard to taking possession of Necker Island. He states that Sanford Fleming sent a man to charter a steamer for Honolulu for the purpose of seizing Necker Island, trusting that Great Britain would recognize the seizure. The Government of Hawaii, learning of this proposed movement, took steps to prevent its being carried out.

The Cholera Scourge.

LONDON, July 29.—Private letters tell horrible stories of the hold which cholera has now obtained on St. Petersburg, where it seems that Hamburg's experience is likely to be thrown into the shade. It is significant that for several days there have been no official bulletins from Russia of the plague's progress. Sporadic cases continue to appear in the lower Rhine valley and along the Eastern

which, however, really belonged to a syndicate of Clyde yachtmen. The syndicate building the new boat is practically the same as that which ran the Thistle.

"Watson has designed a new yacht, and has guaranteed that she will beat the Britannia. She is being built by Fife of Forfar. For some reason or other my informant told me absolute secrecy was being preserved regarding the new boat."

Sentenced to Death.

LYONS, August 3.—At the conclusion of the trial of Santo Caserio, the murderer of President Carnot, in the assize court here today, the prisoner was sentenced to be executed by the guillotine. In spite of the prisoner's defiant attitude, his habitual smile disappeared from his face when the sentence of death was pronounced. M. du Brail, the prisoner's counsel, gave notice of appeal, and in so doing asked that the presiding Judge's charge to the jury at the opening of the session be entered on the records.

The Case of Ezeta.

WASHINGTON, August 3.—The United States war ship Bennington with General Ezeta on board, on her way from Alcaapulco to San Francisco, is proceeding under half power, owing to one of her engines being disabled, and is not expected to reach her destination earlier than August 10th. After thorough repairs at the Mare Island Navy Yard she will return to the coast of Central America.

Proposed New States.

WASHINGTON, August 3.—The New Mexico and Arizona admission bills were reported to the Senate today. In the case of New Mexico a constitutional convention is provided for, the delegates to which are to be chosen at an election to be held on the second Tuesday in June, 1895, and the convention is to meet on the second Tuesday in the following July.

To Get Rid of the Lepers.

SAN FRANCISCO, August 1.—Mayor Ellert has been trying to find a way to dispose of the San Francisco colony of lepers that exists out beyond the Mission, and the most satisfactory way that has occurred to him is to ship the entire colony to Molokai, the leper island of Hawaii.

Lepers from all over the Pacific Coast are under treatment and awaiting death at the San Francisco hospital, and the Mayor thinks it would be an excellent policy to in turn unload them on the Pacific islands where they could live in greater freedom and possibly receive better treatment than they get at the local hospital, which everybody shuns.

But Hawaii may pass an exclusion act against American lepers on the ground that it has enough of its own. Lawyer Thomas B. Bishop of the firm of Garber, Boalt & Bishop was in Honolulu some time ago, and there he became acquainted with F. M. Hatch, a lawyer high in the councils of the Hawaiian Government. At the Mayor's request he wrote to Mr. Hatch about the removal of the lepers to Molokai, and the answer that he received is as follows:

"HONOLULU, June 22, 1894.

"DEAR MR. BISHOP:—Yours of the 5th instant in regard to the lepers at the Receiving Hospital was duly received.

"Please say to Mayor Ellert that the Government will give careful consideration to any proposition which he may choose to make to them upon this subject, but at the moment of writing I am at a loss to understand how the Executive could act in a matter of this nature without legislative action.

"The system of segregation has been faithfully carried out in recent years and gives hope of ultimate eradication of the disease. We have obtained appropriations for the support of lepers amounting to something over \$100,000 a year, considering the size of the community, is a pretty severe tax, but it has been met without a murmur from any quarter.

"I am inclined to think that objections of a sentimental nature would be made to a proposition for taking care of lepers from any other country. The idea certainly would not be a very pleasant one—that these islands were being turned into an international lazaretto. I hope, however, what I have said will not discourage Mr. Ellert from making a trip down here, because we would certainly be glad to see him, whatever might be the result in regard to this matter.

"Very truly yours,

"F. M. HATCH."

Mayor Ellert is determined to find something more definite about the feasibility of his plan, however, and if the project is not too strongly opposed at Honolulu he will try to have it carried into effect.

To Reside in Honolulu.

C. L. Wight, of Mahukona, arrived on Saturday morning on the steamer Kinau. It is understood that he will take up his residence in this city, after living for 13 years on Hawaii. There is some talk of electing Mr. Wight president of the Wilder Steamship Company. The matter will be settled very soon as a meeting of the company will be held early in September. He is considered a very energetic and practical business man.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint. When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally flows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by all Dealers, Bessons, Surra & Co., Agents or H. I.

PERSONALS.

Judge W. F. Frear and Mrs. Frear, W. R. Castle, Professor Theodore Richards, Dr. J. M. Whitney and wife and Mrs. J. T. Lewis and daughter are all in town again, after spending a few weeks on Hawaii.

Mrs. C. L. Wight was a passenger on the Australia. Her husband arrived from Hawaii the same morning.

Mrs. Wray Taylor and child are home again after paying a visit to the Coast.

R. R. Hind and wife arrived from Hawaii on Saturday morning. They will leave for San Francisco on Saturday.

O. S. Williams, J. D. Letcher, W. F. Heilbron, G. Wallin, F. Clifford, Mrs. William, H. Hoogs and Miss Lillie Love, all of whom were members of the Frank L. Hoogs excursion party, returned from the volcano on Saturday.

Miss Grace Wing is at present on Maui taking in the different sights on that island.

Arthur Johnstone, the Star's editor, received Saturday, the sad news of the death of his father in California.

Miss Hannah Eastman was an arrival by the Australia. She will assume charge of the kindergarten for foreign children.

Admiral Walker and staff made a farewell call on the Government Saturday.

Charles Hitchcock, who left on the Kinau in a very weak condition, stood the sea trip remarkably well. He will soon leave for the Hitchcock place in the Olan District, to remain several weeks.

Miss Margaret Rocha, one of the Hoogs excursionists, did not return with the party. She stopped off at Oukala to spend a few weeks with Mrs. Walker at the place mentioned.

Arthur Richardson expects to return to Honolulu very soon and remain here permanently. Mr. Richardson was formerly United States Vice Consul at this port.

F. W. Macfarlane is in town again. He left last week for Mahukona to adjust an insurance loss. On his way back he stopped off at Maalaea Bay to spend a day at Waikapu.

E. I. G. Steele's Estate.

The will of E. I. G. Steele was filed for probate Saturday. He leaves \$3000 to his mother, Eliza Anna Steele of Brooklyn, N. Y., and gives the rest of his property to his widow, Emma S. Steele, who is appointed sole executrix without bonds, says a late San Francisco Chronicle. He commends his children—Edward, Beatrice and Muriel Steele—to their mother's care, though he says that he has deeded 960 acres of land in El Dorado county to his son Edward. In the petition for the probate of the will Mrs. Steele does not describe the estate nor estimate its value more than to say that it is worth over \$10,000. A great deal of the property has been deeded to Mrs. Steele, which, of course, will not figure in the probate proceedings.

Will Repeat the Lecture.

The following is from the San Francisco Chronicle of August 4: Owing to many requests the Camera Club expects to repeat the camera lecture on the Hawaiian islands by Mrs. Gans in the near future. Mrs. Gans is a talented San Francisco lady who recently spent three months at the islands.

The Best Dressing
AYER'S
HAIR
VIGOR

Prevents the hair from becoming thin, faded, gray, or falling out. It cures itching humors, and keeps the scalp cool, moist, and healthy. The base of Ayer's Hair Vigor is a refined and delicate fluid which does not soil or become rancid by exposure to the air, and which is as perfect a substitute for the oil supplied by nature, in youth and health, as modern chemistry can supply.

Ayer's Hair Vigor

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass., U. S. A.

Beware of cheap imitations. The name—Ayer—is prominent on the wrapper and is blown in the glass on the bottom of each of our bottles.

Look at our assortment of Bird Cages.
Direct importations specially selected.
Inspection of our stock is solicited.
Now is the time to make your choice.
Give your orders to the Pacific Hardware Company, Limited.

A Conversation
On Cut-Rates.

"Good morning. You are still cutting prices I hope, for I wish to make a purchase?"
"Yes, we are still cutting. We're going to continue so long as the public desire it. They seem to like purchasing a 50c patent medicine for less than the established rates. We are glad to serve them; we want their business and we want their good-will."

"Now, will you please tell me what led to this cutting?"
"There are several reasons. We wish to reach out for more business. There's no better way than to offer goods of best quality at sub bottom prices. That's always a trade bringer. In this we have not failed in our purpose for we have observed a material increase during the past month. We have new customers come to us every day. They are certainly getting their money's worth here."

Another reason was, that two drug firms made a combination to boycott us because we gave cash customers a liberal discount. A boycott usually ends contrary to the aim sought, and the last conditions prove worse than the first. We have cut below our competitor's prices and we are underselling every house in our line."

"You say they tried to boycott you?"
"Certainly."
"Well that's sufficient. You'll have my trade in future. Good morning."

The foregoing conversation took place in the drug store of

Hobron, Newman & Co.

Notice.

THE ANNUAL MEETING OF THE HAWAIIAN GAZETTE COMPANY will be held at the office of W. R. Castle, Esq., on THURSDAY, August 16, at 3 P. M. H. M. WHITNEY, President.

BETWEEN THE DEVIL AND THE DEEP SEA.

(The situation of poor Korea as viewed by one of the Philadelphia papers.)

Shuang. It is added that the crew of the Ilia rescued 150 Chinese struggling in the water.

The dispatch confirms the report that the Chinese were victorious over the Japanese in the recent battle at Yashan, Korea.

SHANGHAI, August 3.—The soldiers beheaded at Tien-Tsin for desertion pleaded in extenuation of their offense hunger and exhaustion. Before they were executed they were stripped of their uniforms and their pigtail were cut off. The example has terrified the army.

An edict has gone forth that the army will receive double pay hereafter during the war with Japan, and a large bonus has been offered to officers competent to navigate Chinese naval vessels and transports.

Missionaries in Danger.

BALTIMORE, August 1.—Bishop Alphonse W. Wilson of the Southern Methodist Church, who spent many years in mission work in China and Japan, says: "There is much reason for fear for the safety of the missionaries, both men and women, now stationed in China and Korea. The natives are always ready to visit the responsibility of troubles on foreigners, no matter how remote they may be from the cause of the trouble."

War Material for China.

NEW HAVEN (Conn.), August 2.—It is reported here that the Winchester Repeating Arms Company has shipped several carloads of guns and ammunition for the Chinese Government. The shipment was sent by rail to Vancouver, B. C.

Death From the Plague.

HONGKONG, July 28.—A blue-book issued today by Sir W. Robinson, the Governor of Hongkong, reports that 120,000 people died from the plague in the Canton district.

Cholera in China.

VANCOUVER (B. C.), July 27.—Oriental advisers by the Embassy of India indicate that China is threatened with an epidemic of cholera.

They Go to Gresham.

WASHINGTON, August 1.—The Hawaiian royalist commissioners, who reached the city last night, kept in their rooms at the Arlington most of the day, arranging for their plan of work here. When asked the purpose of their visit to Washington, Mr. Wideman said:

"I cannot tell you at this time. We have agreed not to divulge the nature of our mission until we see Secretary Gresham, and also possibly the President. We expect to see Secretary Gresham tomorrow, and shall go direct to the State Department, and not
